

# CATALYST! WORKSHOP

**A Pathway to  
Great Commission  
Engagement**

At OMS, we want to help your church discover its unique role in God's global mission. Our **Catalyst Workshops** are designed to guide churches in identifying and living out their calling—locally, regionally, and globally. These interactive sessions, led by experienced OMS representatives, are available for individual churches or multi-church gatherings and are offered at no cost. It's our joy to provide these **FREE** workshops as part of our commitment to helping churches become vibrant sending communities.

The Catalyst Workshop aids individuals and churches in becoming active participants in the Great Commission through the **Acts 1:8** framework. Catalysts accelerate reactions without losing their own effectiveness.

When we allow the Holy Spirit to work through us in God's redemptive plan, we start to see positive changes in ourselves, our communities, and the world. This workshop guides participants through a four-step cycle:

- **Discover God's Heart:** A Biblical Foundation of Missions and Unreached People Groups
- **Discern God's Invitation:** Each Person and Church's Unique Contribution to God's Kingdom
- **Develop God's Pathways:** Strategize with Him to develop pathways for obedient impact
- **Deploy – Join God's Mission:** Increase your church's sending capacity and deploy all members into God's mission in your community and world

**Date:** Saturday, April 11th

**Time:** 9:00am – 3:00pm with lunch provided

**Location:** Mariners Bethel GMC

**RSVP:** **FREE EVENT but registration is required.**
